

2019 Solid Waste Implementation Plan Template & Approval Process

Overview and Approval Process

This template can be used to write a Solid Waste Implementation Plan (SWIP) to be in conformance with the State's 2019 Materials Management Plan (MMP). **Solid Waste Management Entities (SWMEs) are not required to use this template but may find it helpful for SWIP drafting.**

Minimum 2019 SWIP Requirements:

- 1. SWME Performance Standards.** SWIPs must address how each SWME Performance Standard is/will be completed during the SWIP term. SWIPs that adequately address the SWME Performance Standards are considered to be implementing the priorities of this MMP, as further outlined by 10 V.S.A. § 6604(a)(1). SWME Performance standards include all the requirements from 24 V.S.A. § 2202a.
- 2. Solid Waste Facility Siting Criteria.** Describe siting criteria that will apply to solid waste facilities which may be proposed by any public or private entity in the SWME region. As required by 10 V.S.A. §6605(c), siting criteria shall not be less stringent than the criteria in Vermont Solid Waste Management Rules.
- 3. Specify the Facilities that are Included in the SWIP and Describe How Proposed Facilities will be Reviewed for Inclusion.** Explain the process and standards to be used to determine if newly proposed solid waste facilities would be included in the SWIP. The process may reference siting criteria and existing zoning ordinances, may require a host town agreement, or may defer to requirements in the Vermont Solid Waste Management Rules for some or all types of solid waste facilities. The standard(s) for being included in the SWIP should be clear.
- 4. Public Participation in the SWIP Approval Process.** Describe the process to be used to ensure public participation in the development and implementation of the SWIP. The local community should be notified of opportunities to participate in the SWIP development and implementation. In accordance with state statute, SWMEs must hold at least two public meetings on the draft SWIP.
- 5. Ordinances.** Include copies of any solid waste related ordinances with the SWIP.
- 6. Conformance with Other Plans.** Demonstrate that the SWIP is in conformance with any regional plan adopted in accordance with 24 V.S.A Chapter 117. Demonstration may be in the form of a letter from the applicable regional planning commission regarding conformance of the SWIP with the regional plan(s), copies of pertinent sections of the regional plan(s), or other documentation that proves conformance.
- 7. SWIP Reports.** All SWMEs must submit an annual SWIP Report on their Performance Standards and demonstrate completion of all required activities via ReTRAC by July 1st. ANR will provide SWIP Reporting Guidance.

2019 SWIP Approval Process:

1. SWMEs must submit a draft SWIP to ANR by July 1, 2020 that is in conformance with the 2019 MMP.
2. Solid Waste Program staff will review the SWIP and send a letter outlining any unmet requirements.
3. SWMEs are responsible for submitting revised SWIPs within 30 days to address unmet requirements.
4. If the revised SWIP completely addresses all comments in the letter, ANR will recommend it for pre-approval. If the revised SWIP does not address all the comments, a follow-up review letter will be sent and the SWME will have another 30 days to address all comments in a subsequent revision.
5. Once a draft SWIP is recommended by ANR for pre-approval, the SWME must hold two public hearings in its region on the draft SWIP.
6. Upon completion of two public hearings and provided that no changes were made to the pre-approved SWIP, the SWME Board of Supervisors, Select Board or City Council may adopt the draft SWIP, which can then move toward full approval by ANR.
7. The following must be provided by the SWME as proof that public meetings were held in order to move toward final approval:
 - a. dates of at least two public meetings that were held by the SWME warning the draft SWIP, and
 - b. a summary of the meetings.

2019 Solid Waste Implementation Plan Template & Approval Process

8. If no changes were recommended on the draft SWIP at the public meetings, then it can move forward for final approval from ANR. The ANR, DEC, Waste Management and Prevention Division Director will provide final approval of SWIPs via an ANR approval letter. If the draft SWIP is revised in any way, ANR will need to review the changes before moving it forward for final approval.

2019 SWIP Timeline

- SWMEs must submit a draft SWIP that conforms to the 2019 MMP by July 1, 2020.
- All SWIPs must be approved by November 19, 2020.
- During the interim year in 2020 when SWIPs are being written and reviewed, SWMEs must continue to conform to Year 5 of the 2014 MMP with the following exceptions:
 - For Household Hazardous Waste (HHW) collection requirements, SWMEs can choose to meet 2019 MMP requirements or the 2014 MMP's Year 5 HHW requirements.
 - The survey is not required.
 - Drywall collection is not required.
 - Asphalt shingle collection is not required until 7/1/2021.
- 2019 MMP was finalized on November 19, 2019 therefore "SWIP years" for reporting purposes will begin with calendar year 2021 as follows:
 - SWIP Year 1 = Jan. 1 – Dec. 31, 2021
 - SWIP Year 2 = Jan. 1 – Dec. 31, 2022
 - SWIP Year 3 = Jan. 1 – Dec. 31, 2023
 - SWIP Year 4 = Jan. 1 – Dec. 31, 2024
 - SWIP Year 5 = Jan. 1 – Dec. 31, 2025

2019 Solid Waste Implementation Plan Template & Approval Process

SWIP Template

Please describe how you intend to meet the requirements of each MMP performance standard within the 5-year SWIP period. You may write a brief description of a program you will implement or bullet point specific tasks you will complete. Two to three sentences is often sufficient to respond to the MMP performance standards but provide as much description as you need to ensure clarity of how the performance standard will be met. Note that the space in the tables below will adjust to the amount of text you write.

SWME Solid Waste Implementation Plan

Name of SWME	Town of St. Johnsbury
Year Chartered (if applicable)	Click here to enter text.
Mission for Sustainable Materials Management	Our mission is to reduce our wastes for a fitter St. Johnsbury. This is being accomplished to the greatest extent possible by the reduction in generation and toxicity of waste through education, implementation of programs and common sense.
Names of Member Town(s)	Town of St. Johnsbury
<input type="checkbox"/>	Attach cover page once SWIP has been pre-approved with title and date adopted by SWME.

General

G1	<p>Disposal and Diversion Reporting.</p> <ol style="list-style-type: none"> DISPOSAL RATE: To track progress with state waste reduction goals, SWMEs must report their disposal rate in SWIP years one and five. SWMEs may use the method in the <i>ANR Data Guidance</i> to calculate their disposal rate or another method approved by ANR. Disposal rate reports must be based on calendar year data and be submitted to ANR via ReTRAC by July 1st. DOCUMENTATION (only required in annual SWIP reports): <ol style="list-style-type: none"> First (1st) Year SWIP Report: report year 1 annual per person per year disposal rate. Fifth (5th) Year SWIP Report: report year 5 annual per person per year disposal rate. DIVERSION RATE: SWMEs are not required to report diversion rates to ANR; however, it is strongly recommended that SWMEs track their diversion efforts to determine the success of their programs and services.
Plan to submit data:	The Town of St. Johnsbury MSW disposal for 2019 was 11,205.63 tons. The 2010 total population is 7,781 for a disposal rate of 7.89 pounds per capita per day. The disposal rate for St. Johnsbury uses the ANR Data Guidance to calculate the rate. This will be reported via ReTRAC .

2019 Solid Waste Implementation Plan Template & Approval Process

G2	<p>SWIP Posting & Publicity. To ensure community members are aware of and can access the SWIP, each SWME must—within one month of their SWIP approval—post their approved SWIP on their website and submit one press release about their SWIP to local newspapers within two months of SWIP approval.</p> <p>DOCUMENTATION (only required in annual SWIP reports):</p> <ol style="list-style-type: none"> 1. First (1st) Year SWIP Report: supply website link of SWIP and attach press release along with date released and list of newspapers where it was sent.
Plan for Posting and Press Release:	The updated SWIP will be posted on the St. Johnsbury website, stjvt.com within one month of approval by the ANR and the Town will submit a press release about the SWIP at the same time.

G3	<p>A-Z Waste & Recycling Guide. To ensure community members have access to local information on state disposal bans and how to reuse, recycle, donate, compost, and safely dispose of their unwanted materials, each SWME will develop and maintain an A-Z guide on their website that lists regional management options for various materials. This guide must be updated on the SWMEs website within the first SWIP year and remain accurate throughout the SWIP term. The list must contain, at minimum, information on how to manage, recycle, or divert all state disposal banned items in addition to information on where to recycle/reuse the following materials: clothing/textiles, asphalt shingles and drywall, sharps, pharmaceuticals, and food for donation.</p> <p>DOCUMENTATION (only required in annual SWIP reports):</p> <ol style="list-style-type: none"> 1. Provide A-Z website link in annual SWIP report. 2. A-Z website link must be easily found from the district, alliance or town’s website within 2 clicks or fewer from the homepage. 3. Publicize the A-Z Waste & Recycling Guide with at least two forms of outreach annually throughout the SWIP term.
Plan for Updating Webpage:	The A-Z Waste and Recycling Guide will be updated annually with the State’s recommended minimum required list by the end of SWIP Year 1. The entries will be reviewed and corrected to include all needed information. The waste and recycling guide are found at the stjvt.com website.
Plan for Publicity:	The announcement of the updated guide within the SWIP will be presented through a press release.

G4	<p>Variable Rate Pricing. SWMEs must implement a variable rate pricing system that charges for the collection of municipal solid waste from a residential customer for disposal based on the volume or weight of the waste collected.</p> <p>DOCUMENTATION (only required in annual SWIP reports):</p> <ol style="list-style-type: none"> 1. In annual SWIP report, explain the method used to ensure haulers and facilities are charging residents for trash based on volume or weight.
Description of System:	The Town of St. Johnsbury has a Variable Rate Pricing Ordinance. The cost associated with disposal and recycling from haulers and the Transfer Station are evaluated annually by the Town of St. Johnsbury.

2019 Solid Waste Implementation Plan Template & Approval Process

<p>G5</p>	<p>Solid Waste Hauling Services. To ensure community members have access to information on solid waste hauling services in their region or town, SWMEs must annually update the contact information and trash, recycling, and food scrap pickup services offered by all commercial solid waste haulers operating within their region on the SWME website. SWMEs may elect to establish licensing or registration programs to accomplish this requirement.</p> <p>DOCUMENTATION (only required in annual SWIP reports):</p> <ol style="list-style-type: none"> 1. In annual SWIP report, provide website link to hauler contact list and services haulers provide.
<p>Description of Updating Process:</p>	<p>The Town of St. Johnsbury has a list of all licensed haulers that is updated annually.</p>

Outreach – Recycling, Organics, HHW/CEG, EPR Programs

<p>O1</p>	<p>School Outreach. To ensure all K-12 public and private school children, faculty and staff understand state disposal bans and how to reduce waste, reuse, recycle, compost, donate, and safely manage materials responsibly, SWMEs must annually visit and work with K-12 public and private schools to implement school-wide waste reduction programs — covering, at minimum, disposal ban information, how to recycle correctly, how to separate food scraps for composting, how to reduce wasted food and donate what is appropriate, how to safely manage hazardous waste, and collection options available from Vermont’s Extended Producer Responsibility Programs for electronics, paint, batteries, mercury-containing bulbs and thermostats. SWMEs must assist schools on a continual basis to ensure the effectiveness of waste reduction programs.</p> <p>SWMEs must conduct in-person outreach and education assistance to at least 10% or 2 schools (whichever is greater) within their jurisdiction each year, ensuring that at least 50% of the schools are reached by the end of the SWIP term. SWMEs should prioritize outreach to schools that have not yet been visited. For SWMEs with fewer than 10 schools, assistance should be offered on an annual basis to at least 2 schools per year, with re-visits to schools if all schools in the jurisdiction are reached early in the SWIP term.</p> <p>SWMEs may work with ANR’s Environmental Assistance Office to obtain information and technical assistance on HHW/CEG handling, disposal, waste reduction, recycling, and finding cost effective disposal options.</p> <p>DOCUMENTATION (only required in annual SWIP reports):</p> <ol style="list-style-type: none"> 1. Provide a list of schools contacted, dates visited, informational materials provided (such as VT Waste Not Guide), technical assistance or outreach offered, and status of recycling and food scrap diversion programs in annual SWIP report.
<p>Description of Outreach Plan:</p>	<p>There are five private and one public school in the Town of St. Johnsbury serving pre-K to 12. Tara Holt works with the Town of St. Johnsbury on outreach support for schools and businesses. The Town of St. Johnsbury commits to providing information on disposal bans; how to recycle correctly; how to separate food scraps for for composting; how to reduce wasted food and donate what is appropriate; how to safely manage hazardous waste and collection options available from Vermont’s Extended Producer Responsibility Programs for electronics, paint, batteries, mercury containing bulbs and thermostats. This information will be updated annually in the ReTRAC report.</p>

2019 Solid Waste Implementation Plan Template & Approval Process

<p>O2</p>	<p>Direct Business Outreach. To ensure businesses and institutions (hospitals, nursing homes, colleges, correctional facilities, and other large waste generators) understand how to meet State requirements and reduce waste, recycle, compost, donate food/goods, and safely manage materials responsibly, SWMEs must annually conduct business outreach and education either in person or via phone — covering, at minimum, disposal ban information, how to recycle correctly, how to separate food scraps for composting, how to reduce wasted food, how to safely manage hazardous waste, and collection options available from Vermont’s Extended Producer Responsibility Programs for electronics, paint, batteries, mercury containing bulbs and thermostats. SWMEs must provide business outreach and education on a continual basis to ensure the effectiveness of waste reduction programs.</p> <p>SWMEs must conduct business outreach and education to at least 2% or 20 businesses/institutions (whichever is greater) within their jurisdiction each year and reach at least 10% of the businesses and institutions within their region by the end of the SWIP term. For SWMEs with fewer than 20 businesses, all businesses must receive outreach at least twice during the SWIP term.</p> <p>SWMEs should prioritize outreach to businesses that have not yet been contacted or visited or those whose status is not yet known.</p> <p>DOCUMENTATION (only required in annual SWIP reports):</p> <ol style="list-style-type: none"> 1. In annual SWIP report, provide list of businesses/institutions contacted, date contacted, outreach materials provided (such as the VT Waste Not Guide), and the status of recycling and food scrap diversion programs and whether follow up is needed.
<p>Description of Outreach Plan:</p>	<p>There are approximately 705 businesses and institutions in the Town of St. Johnsbury. See O1. The Town of St. Johnsbury commits to providing information on disposal bans; how to recycle correctly; how to separate food scraps for for composting; how to reduce wasted food and donate what is appropriate; how to safely manage hazardous waste and collection options available from Vermont’s Extended Producer Responsibility Programs for electronics, paint, batteries, mercury containing bulbs and thermostats. This information will be updated annually in the ReTRAC report.</p>

<p>O3</p>	<p>Waste Reduction at Events. To ensure community members have resources to reduce waste, recycle, and divert food scraps from the trash at events, SWMEs must, <u>at minimum</u>, offer technical assistance which could include signage and coordination with local haulers and facilities accepting food scraps. Though not required, SWMEs are encouraged to host waste-sorting stations at events with SWME staff or volunteers or to loan community members basic supplies such as signage and collection bins.</p> <p>DOCUMENTATION (only required in annual SWIP reports):</p> <ol style="list-style-type: none"> 1. Provide information on SWME or town website of event waste reduction and diversion resources and services and provide link in annual SWIP report. 2. In annual SWIP report, list events that have received assistance each year.
<p>Description of Assistance:</p>	<p>The St. Johnsbury website stjvt.com enables community members that are planning or participating in an event to have access to resource information with easy to use hints on how to reduce waste and the A through Z list of waste management options</p>

2019 Solid Waste Implementation Plan Template & Approval Process

O3	<p>Waste Reduction at Events. To ensure community members have resources to reduce waste, recycle, and divert food scraps from the trash at events, SWMEs must, <u>at minimum</u>, offer technical assistance which could include signage and coordination with local haulers and facilities accepting food scraps. Though not required, SWMEs are encouraged to host waste-sorting stations at events with SWME staff or volunteers or to loan community members basic supplies such as signage and collection bins.</p> <p>DOCUMENTATION (only required in annual SWIP reports):</p> <ol style="list-style-type: none"> 1. Provide information on SWME or town website of event waste reduction and diversion resources and services and provide link in annual SWIP report. 2. In annual SWIP report, list events that have received assistance each year.

HHW & CEG Hazardous Waste

H1	<p>HHW Collection Events and Facilities. To ensure community members have convenient access to safely dispose of Household Hazardous Waste (HHW) and Conditionally Exempt Generator Hazardous Waste (CEG), SWMEs must provide a minimum of two (2) HHW/CEG hazardous waste collection events per year or access to a permanent HHW collection facility defined within this MMP as a facility that is open at least one day per week and open at minimum from May through October (ANR may consider approving requests for alternative operating days and seasonal openings and closures of permanent facilities when necessary). SWMEs that provide access to a permanent HHW collection facility in their region, are exempt from the requirement to offer all towns at least one annual collection event within 20 road-miles.</p> <p>Minimum Requirements for SWMEs utilizing Collection Events: SWMEs must offer at least one event scheduled in the spring and one in the fall and events must operate for a minimum of 4 hours. SWMEs who only offer collection events or operate HHW facilities with operating hours similar to collection events must <u>annually</u> provide each of its towns with access to at least one collection event (or to a facility) within 20 road-miles; meaning a maximum distance of 20 road-miles from any point in the town. If a SWME provides additional events above the minimum requirement, waivers to the minimum duration for each event may be considered by ANR. To meet this 20 road-mile convenience requirement, certain regions may need to add collection events.</p> <p>SWMEs may share access to events and facilities provided a signed agreement confirming access by the SWME's community members is obtained; and provided that an event or facility is within 20 road-miles from any point in a town that would be using that event or facility.</p> <p>In the event an EPR Program is established for certain HHW materials, SWMEs would be required to ensure that collection exists for all <u>other HHW materials not covered</u> by the HHW EPR Program and to meet and maintain the above HHW collection and convenience standards.</p> <p>DOCUMENTATION (only required in annual SWIP reports):</p> <ol style="list-style-type: none"> 1. In annual SWIP report, provide dates of events or link to facility hours on SWME website, number of participants and the amount of HHW/CEG hazardous waste collected.
-----------	--

2019 Solid Waste Implementation Plan Template & Approval Process

<p>H1</p>	<p>HHW Collection Events and Facilities. To ensure community members have convenient access to safely dispose of Household Hazardous Waste (HHW) and Conditionally Exempt Generator Hazardous Waste (CEG), SWMEs must provide a minimum of two (2) HHW/CEG hazardous waste collection events per year or access to a permanent HHW collection facility defined within this MMP as a facility that is open at least one day per week and open at minimum from May through October (ANR may consider approving requests for alternative operating days and seasonal openings and closures of permanent facilities when necessary). SWMEs that provide access to a permanent HHW collection facility in their region, are exempt from the requirement to offer all towns at least one annual collection event within 20 road-miles.</p> <p>Minimum Requirements for SWMEs utilizing Collection Events: SWMEs must offer at least one event scheduled in the spring and one in the fall and events must operate for a minimum of 4 hours. SWMEs who only offer collection events or operate HHW facilities with operating hours similar to collection events must <u>annually</u> provide each of its towns with access to at least one collection event (or to a facility) within 20 road-miles; meaning a maximum distance of 20 road-miles from any point in the town. If a SWME provides additional events above the minimum requirement, waivers to the minimum duration for each event may be considered by ANR. To meet this 20 road-mile convenience requirement, certain regions may need to add collection events.</p> <p>SWMEs may share access to events and facilities provided a signed agreement confirming access by the SWME’s community members is obtained; and provided that an event or facility is within 20 road-miles from any point in a town that would be using that event or facility.</p> <p>In the event an EPR Program is established for certain HHW materials, SWMEs would be required to ensure that collection exists for all <u>other HHW materials not covered</u> by the HHW EPR Program and to meet and maintain the above HHW collection and convenience standards.</p> <p>DOCUMENTATION (only required in annual SWIP reports):</p> <ol style="list-style-type: none"> 1. In annual SWIP report, provide dates of events or link to facility hours on SWME website, number of participants and the amount of HHW/CEG hazardous waste collected.
<p>Description of Collection Plan:</p>	<p>St. Johnsbury holds a May and September HHW/CEG Collection event on a Saturday at the Main Street Parking Lot behind the St. Johnsbury Fire Station. These events are four hours each. The Town of St. Johnsbury also partners with the Town of Burke and residents of both towns are able to participate in these events. The Towne of Burke events are held in July and October at the Burke Town Garage. St. Johnsbury provides the number of residents and CEG businesses and the amount of HHW collected in the annual report in ReTRAC.</p>

2019 Solid Waste Implementation Plan Template & Approval Process

<p>H2</p>	<p>Collection of Landfill-Banned and Dangerous Materials. Each SWME shall demonstrate that year-round collection options exist in their region for the following materials: batteries, mercury containing lamps, mercury thermostats, 1- and 20-pound propane tanks, electronics, paint, tires, used oil, and white goods (including discarded refrigerators, washing machines, clothes dryers, ranges, water heaters, dishwasher, freezers). Collection locations can be privately or publicly owned, such as auto parts stores collecting used oil, or hardware stores collecting paint and fluorescent lamps. However, if the only collection location for a required material closes during the SWIP term, then the SWME must provide a collection option for its residents. All collection locations must be open at least one weekday and one weekend day per week. In addition, all outreach promoting the collection of these materials must make clear that the collection of these materials is separate from curbside, or blue-bin, recycling.</p> <p>DOCUMENTATION (only required in annual SWIP reports):</p> <ol style="list-style-type: none"> 1. In annual SWIP report, provide link to SWME’s A-Z Guide’s listings with name, location, phone number, and website (if available) of the locations, by material type.
<p>Plan for Updating Collection Locations:</p>	<p>The various landfill banned and dangerous materials are identified in the St. Johnsbury website stjvt.com. The information on the website will reflect the difference between for recycling via blue-bin and collection of Universal and HHW. The A-Z entries will be updated annually.</p>

Food Donation

<p>F1</p>	<p>Food Rescue. To ensure community awareness of food donation centers, SWMEs must, at minimum, list food donation groups on their website (this can be part of the A-Z Guide). SWMEs should contact and collaborate with local food redistribution groups to conduct outreach and education to food businesses and institutions about opportunities to donate quality food within the region to feed people. Related groups include Vermont Foodbank, hunger councils, food shelves, churches, schools, and other nonprofit and community organizations that accept and distribute donated food items.</p> <p>DOCUMENTATION (only required in annual SWIP reports):</p> <ol style="list-style-type: none"> 1. In annual SWIP report, provide link to SWME’s A-Z Guide’s food donation listing, with name, location, phone number, and website (if available) of the food donation centers.
<p>Plan for Updating Website:</p>	<p>The food donation sites are identified in the St. Johnsbury website stjvt.com.</p>

2019 Solid Waste Implementation Plan Template & Approval Process

Textiles

<p>T1</p>	<p>Textile Reuse and Recycling. To ensure community members have access to textile reuse and recycling centers where used clothing can be donated, SWMEs must annually ensure that at least one collection location exists within their region. Textile reuse/recycling locations can be either privately or publicly owned. However, if the only collection location closes or ceases collection during the SWIP term, then the SWME is responsible for providing a collection option for its residents or partnering with another group that may coordinate an annual drop and swap event. Collection locations can also be shared amongst SWMEs so long as the facility is within the same county or SWME region. SWMEs must list where to donate and reuse/recycle “clothing/textiles” in their A-Z Guides.</p> <p>DOCUMENTATION (only required in annual SWIP reports):</p> <ol style="list-style-type: none"> 1. In annual SWIP report, provide link to SWME’s A-Z Guide’s textiles reuse and recycling listing with name, location, phone number, and website (if available) of the textile reuse and recycling center.
<p>Plan for Ensuring Collection Exists:</p>	<p>Textile reuse/recycling sites in the Town of St. Johnsbury can be found in the website stjvt.com. Currently textiles can be brought to the Salvation Army on Railroad Street and The Little Thrift Shop on North Church Street in St. Johnsbury. The Textile data will be updated annually in the A-Z entries found on the website stjvt.com.</p>

Construction & Demolition (C&D)

<p>C1</p>	<p>Leaf, Yard, and Clean Wood Debris Recycling. To ensure community members have options to recycle leaf, yard, and clean wood debris that are banned from landfill disposal, SWMEs must annually ensure that at least one leaf, yard, and clean wood recycling collection location exists within their jurisdiction. This location can be either privately or publicly owned; however, if the only collection location closes or ceases collection during the SWIP term, then the SWME must provide a collection option for its community members. SWMEs must list where to drop off clean wood in their A-Z Guides. Recycling options can include dimensional lumber that is reused, clean wood that is burned to produce heat and/or power for buildings (including wood stoves), clean wood that is chipped to create mulch or compost feedstocks, and other options listed in the state’s Leaf, Yard, and Clean Wood Debris Guide. Collection locations should be co-located with solid waste facilities that collect C&D and trash to make clean wood recycling convenient.</p> <p>DOCUMENTATION (only required in annual SWIP reports):</p> <ol style="list-style-type: none"> 1. In annual SWIP report, provide link to SWME’s A-Z Guide’s clean wood recycling listing with name, location, phone number, and website (if available) of the collection location.
<p>Plan for Ensuring Collection Exists:</p>	<p>The St. Johnsbury Transfer Station located on High Street accepts leaf, yard and clean wood debris. The St. Johnsbury Stump Dump on Oak Street accepts these materials with some size limitations on clean wood at two publicized events annually. All of this information can be found at stjvt.com. We commit to updating the Leaf, Yard and Clean Wood information in the A-Z section of the website annually.</p>

2019 Solid Waste Implementation Plan Template & Approval Process

<p>C2</p>	<p>Asphalt Shingles and Drywall Recycling.</p> <p>Asphalt Shingles Recycling: To ensure community members have options to recycle asphalt shingles, SWMEs must ensure that at least one recycling collection location exists within their region. Collection locations can be privately or publicly owned. However, if the only recycling collection location closes during the SWIP term, then the SWME must provide a collection option. Collection locations may be shared amongst SWMEs. ANR may suspend this requirement upon finding that insufficient markets exist for these materials.</p> <p>Clean Drywall Recycling: To promote the recycling of clean drywall, SWMEs must list where to drop off clean drywall for recycling in their A-Z Guides (even if drywall recycling collection locations are outside of the SWME region). To encourage development of options for drywall recycling collection, SWMEs must contact drywall recycling collectors once during the SWIP term to determine costs for obtaining drywall recycling collection services in their region.</p> <p>DOCUMENTATION (only required in annual SWIP reports):</p> <ol style="list-style-type: none"> 1. In annual SWIP report, provide link to SWME’s A-Z Guide’s asphalt shingles and drywall recycling listing with name, location, phone number, and website (if available) of these recycling collection locations. 2. Fifth (5th) Year SWIP Report: describe contact made to drywall recyclers for costs for recycling option.
<p>Plan for Ensuring Collection Exists:</p>	<p>New scrap and used drywall and asphalt shingles are accepted for recycling at Myers Recycling Facility in Colchester. The St. Johnsbury Transfer Station located on High Street accepts these materials for disposal. Posting of data on asphalt shingle recycling options will be made on the website, Front Porch Forum and sent to facilities that sell both the shingles and dry wall in St. Johnsbury. The Town of St. Johnsbury commits to contacting drywall collectors during the SWIP term to obtain costs and services. Data on dry wall and asphalt shingles will be updated annually through the A-Z entry.</p>

2019 Solid Waste Implementation Plan Template & Approval Process

Residuals – Biosolids, Wood Ash, Short Paper Fiber

<p>R1</p>	<p>Residuals Recycling Meetings. To promote the recycling of residual materials, each SWME must attend and help ANR Residuals Program staff host and coordinate at least one regional public meeting on residuals recycling during the SWIP term. ANR Residuals Program staff will help SWMEs organize the meetings, give a presentation, and identify speakers and invitees. SWMEs must reserve a space to hold the meetings and send invitations to water/wastewater and public works employees, town managers, select board members, septic and biosolids service providers, citizens, industrial waste generators, and others as appropriate. ANR Residuals Program staff will collaborate with SWMEs to develop a meeting agenda that best suits the needs or issues of the region and its towns. Meeting agendas could cover the benefits and challenges of recycling biosolids and other residual materials, like stabilized septage, wood ash, and short paper fibers, as well as education campaigns for the public on residual materials and keeping non-flushables and toxics out of the wastewater stream and septic systems.</p> <p>DOCUMENTATION (only required in annual SWIP reports):</p> <ol style="list-style-type: none"> 1. Collaborate with Residuals staff to host/coordinate regional public meeting on residuals recycling. 2. Report date of meeting and list of attendees in 5th year SWIP report.
<p>Plan for Assisting with Meeting Coordination:</p>	<p>St. Johnsbury will work with ANR Residuals Program Staff to host and coordinate at least one public meeting on residuals recycling within the Town of St. Johnsbury during the SWIP term. This would include developing the agenda and invitation list for the meeting. We commit to including the agenda and list of attendees in the Year 5 SWIP Report.</p>

Additional SWIP Requirements Outlined in Overview

<p>Solid Waste Facility Siting Criteria</p>	<p>Describe siting criteria that will apply to solid waste facilities which may be proposed by any public or private entity in the SWME region. <u>As required by 10 V.S.A. §6605(c),</u> siting criteria shall not be less stringent than the criteria in Vermont Solid Waste Management Rules.</p>
<p>Description:</p>	<p>Any facilities proposed for the Town of St. Johnsbury would need to be in conformance with municipal planning and zoning requirements and the Vermont Solid Waste Management Rules.</p>

<p>Specify Facilities Included in SWIP & How Proposed Facilities Will Be Reviewed</p>	<p>Explain the process and standards to be used to determine if newly proposed solid waste facilities would be included in the SWIP. The process may reference siting criteria and existing zoning ordinances, may require a host town agreement, or may defer to requirements in the Vermont Solid Waste Management Rules for some or all types of solid waste facilities. The standard(s) for being included in the SWIP should be clear.</p>
<p>Facilities and Process:</p>	<p>For inclusion in the SWIP the developer of the proposed solid waste facility formally requests that the municipality include the facility in the SWIP. The request is reviewed by Town Staff, Town Commissions and/or the Selectboard. This review could include determining if the proposed facility</p>

2019 Solid Waste Implementation Plan Template & Approval Process

Specify Facilities Included in SWIP & How Proposed Facilities Will Be Reviewed	<p>Explain the process and standards to be used to determine if newly proposed solid waste facilities would be included in the SWIP. The process may reference siting criteria and existing zoning ordinances, may require a host town agreement, or may defer to requirements in the Vermont Solid Waste Management Rules for some or all types of solid waste facilities. The standard(s) for being included in the SWIP should be clear.</p>
	<p>conforms with municipal planning and zoning requirements; provide opportunities for public participation; the request is then approved or denied by the selectboard and if the request is approved, notify the Waste Management and Prevention Division by letter that the SWIP has been revised to include the proposed solid waste facility. Facilities currently included in the SWIP are the St. Johnsbury Transfer Station and the St. Johnsbury Wastewater Treatment Plant.</p>

Public Participation in the SWIP Approval Process	<p>Describe the process to be used to ensure public participation in the development and implementation of the SWIP. The local community should be notified of opportunities to participate in the SWIP development and implementation. In accordance with state statute, SWMEs must hold at least two public meetings on the draft SWIP.</p>
Description of Process:	<p>The Town of St. Johnsbury provides opportunities for public participation in the development and implementation of the SWIP through their website stjvt.com as well as press releases and other sites such as radio and social media . Following approval of the Draft SWIP, copies will be available at the Town Clerk’s Office for review prior to the duly noticed public hearings. Copies of the plan will also be available at the Public Library in St. Johnsbury. We commit to holding at least two public meetings and will provide a summary and documentation of the meetings.</p>

Ordinances	<p>Include copies of any solid waste related ordinances with the SWIP.</p>
Copies of Ordinances:	<p>Copies of St. Johnsbury’s Solid Waste Ordinances are already on file within the existing SWIP. No changes have been made from these documents.</p>

Conformance with Other Plans	<p>Demonstrate that the SWIP is in conformance with any regional plan adopted in accordance with 24 V.S.A Chapter 117. Demonstration may be in the form of a letter from the applicable regional planning commission regarding conformance of the solid waste implementation plan with the regional plan(s), copies of pertinent sections of the regional plan(s), or other documentation that proves conformance.</p>
Letter or other Documentation:	<p>Letter will be provided under separate cover.</p>
